COVID-19 Status

- **Johnson County** has one test pending results and 1 Covid-19 related death. As of Tuesday 4/21, all other confirmed and probably Covid-19 patients in the county will be listed as recovered.
- **Wyoming** has 317 lab-confirmed cases; 111 probable cases; and 2 Covid-19 related deaths. These figures include 237 documented recoveries.

Public Health Officer

- **Johnson County Public Health Officer Dr. Mark Schueler** has begun to lift restrictions on several businesses that have applied for exemptions to the State Health Order. While no more exemptions will be granted this week, those businesses which involve low amounts of public traffic may apply to the Emergency Operations Center for exemptions. The easing of restrictions is contingent upon the continued low number of Covid-19 diagnoses in Johnson County.

- Dr. Schueler recommends that county residents continue to be vigilant with regard to personal hygiene and social distancing.
