##### **COVID-19 Status**

- **Johnson County** has had 1 Covid-19 related death. All other confirmed and probable Covid-19 patients in the county have recovered.
- **Wyoming** has 326 lab-confirmed cases; 121 probable cases; and 6 Covid-19 related deaths. These figures include 275 documented recoveries.

##### **Public Health Officer**

- The easing of restrictions is contingent upon the continued low number of Covid-19 diagnoses in Johnson County. Businesses which involve low amounts of public traffic may apply to the Emergency Operations Center for exemptions via email: [jwycovid19eoc@gmail.com](mailto:jwycovid19eoc@gmail.com).
- Wyoming Public Health Order #3 explicitly states that exemptions may be granted "at the discretion of the County Health Officer, under the direction and supervision of the State Health Officer, if demonstrated in writing to the County Health Officer

that effective cleaning and safety measures are implemented by the service provider.”

- Dr. Schueler recommends that county residents continue to be vigilant with regard to personal hygiene and social distancing.

### **Financial Guidance**

- The E.O.C. recommends that citizens who need financial assistance such as refinancing, loan forbearance, and/or loan deferral diligently examine the terms of such agreements because the repayment terms will vary dependent on the type of assistance and the lender institution.
